

EDITORIAL

This volume contains three invited contributions to the Congress *Paleoclimas e Evolução Quaternária da América do Sul*, promoted and executed by the *Associação Brasileira de Estudos do Quaternário – ABEQUA*, with the support of the *Fundação de Amparo à Pesquisa do Estado de São Paulo – FAPESP*, *Instituto Geológico-SMA* and *Instituto Oceanográfico – USP*, from July 5 to 8, 1993, in São Paulo – Brasil. Irion *et al.* deal with the sedimentary history of Amazonia. Markgraf and Anderson with fire ecology in Patagonia. Heusser gives a general treatment of the paleoecology of southernmost South America.

ABEQUA presents its best thanks to the authors for the readiness and generosity in accepting the invitation and presenting the papers.
